Dear Al,

Re: Mining Agreement

This will confirm our recent discussions on the Limestone supply to your Seattle operations for 1983.

We will continue with the mining agreement with the exceptions of the pricing formula.

✓ C.C.L. will charge Lonestar on the 1982 price level i.e. \$5.25 U.S./ Short Ton F.O.B. Seattle plus .10/T royalties.

We will continue to coordinate the shipments between our Marine Department and your Seattle personnel.

We are enclosing the various plans for your property from which we made our calculations of the available rock, as per my letter of July 23, 1982, for perusal by your geologist.

We trust this is in agreement with your understanding and we look forward to continuing our relationship into the future.

All the best for '83.

Yours very truly,
